

“Designed specifically for Finance and Insurance departments Flpoint Virtual Business Manager improves customer service, while increasing product penetration *and* profitability.”

Employing a colorful and intuitive menu selling system, Flpoint presents your dealership’s business office products to customers in a rich and compelling format.

Flpoint lets you offer *all* your products to every customer, every time!

Package pricing makes it easy for customers to decide which option best suits their needs!

Eye-pleasing graphics and clearly-organized material let customers see the value of your F&I products for themselves. Flpoint even includes user testimonial video clips!

Features and Benefits

- Web-enabled menu presentation system presents your products in a rich and compelling format
- Build and maintain an unlimited library of menu templates for use in every delivery situation
- Menu system ensures that all federal disclosure laws are properly met
- Display breakdowns to help your customers understand costs, and adjust to meet individual needs quickly and easily
- Online integration with lenders, credit bureaus, and insurance companies makes closing deals easier than ever before
- Full integration with IDS Astra, the industry’s most powerful and comprehensive Dealer Management System, eliminates redundancy and increases efficiency while leveraging your existing IT investment
